MISARMA ENTERPRISE
SDN BHD

LOGS EXPORT & TIMBER PRODUCTS

Introduction

Misarma Enterprise is a trusted supplier and exporter of premium logs and timber products, serving both local industries and international markets. With years of expertise, we provide a wide range of hardwood and softwood logs, sawn timber, beams, planks, and processed wood products, tailored to meet the needs of construction, furniture, packaging, marine, and industrial applications.

Backed by responsible sourcing, strict quality control, and efficient logistics, we ensure that every delivery meets global standards for durability, consistency, and sustainability. From raw logs to export-ready timber solutions, Misarma Enterprise is committed to delivering products that support projects of every scale with quality you can trust, and reliability you can depend on.

At Misarma Enterprise, our logs and timber products are trusted across a wide range of industries, supporting projects of all scales with strength, durability, and versatility.

Industries We Serve

Construction & Infrastructure

Supplying beams, planks, and sawn timber for building frameworks, flooring, scaffolding, and large-scale infrastructure projects.

Furniture & Joinery

High-quality hardwoods and processed timber for crafting furniture, cabinetry, paneling, and interior finishing.

Packaging & Pallets

Timber solutions for pallet manufacturing, crates, and industrial packaging that ensure goods are stored and transported securely.

Marine & Offshore

Logs and timber products designed for shipbuilding, decking, and offshore structural applications.

Industrial & Manufacturing

Custom-sized logs and timber used in heavy-duty machinery, processing plants, and industrial equipment.

Export & Trade

Export-ready logs and timber products, graded and certified to meet international standards for global distribution.

Logs Export

Misarma Enterprise exports premium timber logs that are responsibly harvested, fully traceable, and prepared to international standards. With certified processing and strategic port access, we ensure consistent quality, reliable volumes, and competitive pricing worldwide.

OUR KEY SPECIES

ACACIA MANGIUM

Fast-growing hardwood, ideal for furniture, panels, and interior applications

MERANTI

Widely used in furniture, plywood, and joinery, valued for its workability

KAPUR

Medium-density hardwood, suited for flooring, doors, windows, and general construction.

KERUING

Strong and dense, commonly used for flooring, decking, and structural works.

SELANGAN BATU

Extremely durable hardwood, perfect for outdoor, marine, and heavy construction.

RUBBERWOOD

Eco-friendly plantation timber, popular for furniture and panel products.

Timber Products

Apart from log exports, we also supply sawn timber in a wide range of species and grades, tailored to meet customer requirements. Kiln drying options are available to enhance stability and durability, with timber offered either rough sawn or further processed as S4S or planed for applications that demand a smoother finish.

SAWN TIMBER

We specialize in premium tropical hardwoods sourced directly from Borneo, complemented by a wide range of timber supplied through our trusted international partners.

MIX LIGHT HARWOOD

Cost-effective and versatile, suitable for general construction, packaging, and furniture.

BELIAN

Known as "Ironwood," highly durable and resistant to decay, ideal for heavy-duty outdoor use.

KERUING

Strong and stable hardwood, commonly used in flooring, decking, and truck flooring.

MERANTI

Known for its good workability, moderate durability, and wide use in construction, furniture, and plywood.

SELANGAN BATU

Known for its excellent resistance to decay and suitability for outdoor and marine applications.

KAPUR

Known for its strength, durability, and suitability for construction, flooring, and general structural use.

PINE

Pine is a lightweight, softwood timber known for its ease of use, affordability, and versatility in construction and furniture.

SPRUCE

Spruce is a lightweight softwood known for its strength, straight grain, and common use in construction and packaging.

Timber Products

Veneer is a thin layer of premium wood, crafted to showcase the natural beauty of timber while providing cost-effective and versatile applications. Ideal for furniture, paneling, and decorative finishes, our veneers are produced with precision to deliver clean edges, uniform thickness, and customizable finishes to meet diverse design needs.

VENEER

We offer high-quality tropical veneers, complemented by a selection of internationally sourced options that cater to diverse design and manufacturing needs. Each sheet is precisely processed to ensure uniform thickness, clean edges, and consistent grain, providing both reliable performance and visual appeal.

EUCALYPTUS VENEER

Eucalyptus veneer is valued for its strength, fine texture, and attractive grain patterns. It offers a warm, natural look and is widely used in furniture, paneling, and interior finishes.

PINE VENEER

Pine veneer is lightweight, versatile, and easy to work with. Its pale color and smooth surface make it ideal for cabinetry, paneling, and applications that require a clean, natural finish.

What Sets Us Apart

01 Sustainable & Responsible Sourcing

We work with certified suppliers and promote ethical forestry practices, ensuring eco-friendly timber solutions.

02 Wide Product Range

From hardwood and softwood logs to sawn timber, beams, planks, and processed wood products, we provide solutions for every requirement.

03 Value-Added Services

Kiln drying, treatment, custom sizing, and export-ready packaging all under one roof.

04 Proven Experience

With years of industry knowledge, we are trusted by builders, manufacturers, and exporters for consistent quality and service.

05 Strict Quality Control

Every product is carefully graded, inspected, and processed to meet both local and international standards.

At Misarma Enterprise, we provide comprehensive value-added services that go beyond timber export by delivering efficiency, compliance, and peace of mind all under one roof.

Our Added Value Services

01
Kiln Drying

Our kiln drying service reduces moisture to industry standards, ensuring durability, stability, and compliance for export markets.

02
Certified Fumigation

In-house licensed fumigators guarantee phytosanitary compliance for all destinations.

03
Custom Sizing

Precision cutting and grading tailored to your specific project or market needs.

04
End-to-End Logistics Support

From yard preparation to port clearance, we manage the export process seamlessly.

Our Sustainability Commitment

We are dedicated to sourcing timber responsibly from sustainably managed forests. Our practices comply with international standards, ensuring traceability, reduced waste, and eco-friendly treatments. At Misarma Enterprise, we balance customer needs with environmental stewardship by delivering quality products while protecting forests for future generations.

Responsible Sourcing

Timber from sustainably managed forests.

Resource Efficiency

Minimizing waste and maximizing log value.

Eco-Friendly Treatments

Kiln drying and protective options with reduced environmental impact.

Global Compliance

Fully aligned with international trade standards.
