MISARMA ENTERPRISE
SDN BHD

Introduction

At Misarma Enterprise, we know wooden packaging is more than storage as it ensures safety, efficiency, and compliance across your supply chain. Our solutions are engineered for strength, durability, and full ISPM 15 compliance, protecting goods through handling, storage, and transport.

Our range includes wooden pallets for heavy-duty use, plywood pallets for lightweight air freight, and wooden boxes & crates for bulky or fragile cargo. Serving industries from oil and gas to FMCG and logistics, we deliver sustainable, export-ready packaging that keeps your business moving forward with confidence.

Construction	Fully enclosed panels
Load Capacity	Up to 2500kg
Standard Size	Custom-built

Application: export shipments, machinery parts, industrial equipment.

Wooden Crate

Construction	Slatted sides with open gaps.
Load Capacity	Up to 2000 kg
Standard Size	Custom-built

Application: Machinery, large parts, export packaging needing visibility.

Our Factory & Warehouse

At Misarma Enterprise, we don't just supply pallets, we fabricate them ourselves. Backed by our in-house manufacturing facility in Bintulu, we maintain full control over quality, materials, and production standards. This allows us to deliver durable, export-compliant pallets that meet both local and international requirements.

With advanced equipment, skilled workmanship, and strict quality checks at every stage, our factory ensures every pallet is built to last. From standard sizes to custom designs, we produce reliable wooden packaging solutions tailored to your exact needs.

Value Added Services

At Misarma Enterprise, we believe packaging is more than just a container — it's a safeguard for your products and reputation. Our value-added services are designed to enhance the quality, durability, and compliance of every wooden packaging product we deliver. With a focus on reliability, efficiency, and adherence to international standards, we ensure that your goods are export-ready and well-protected throughout the entire supply chain.

Fumigation Treatment

Ensuring pallets and packaging materials meet ISPM 15 standards for safe export, preventing pest infestations and customs delays.

Custom Sizing & Design

Tailor-made pallets and crates to fit your exact product dimensions, reducing wasted space and optimizing transport efficiency.

Kiln Drying

Moisture-controlled timber treatment to improve strength, stability, and compliance with international export regulations.

Quality Assurance & Inspection

Every product undergoes strict quality checks to ensure durability, safety, and adherence to both local and international standards.
